## FLASH GitHub update

01/29/2018, Toronto, Ontario. – The FLASH team are pleased to announce our first of many GitHub updates for the FLASH community.

**New GitHub Repo** – This will be where the FLASH community can track all of the technology progress on our various initiatives. This has been one of the most requested features the community has asked for and we are proud to deliver on that promise. Here you will be able to inspect the progress of the team as well as the technology behind what makes FLASH great.

**Web Wallet Code** – Whether you're at home or on the go, the FLASH web wallet is one of the easiest and fastest wallets to use. Now you can inspect every line of code and see the continuous improvement to your FLASH web wallet experience.

**Web Site Code** – As FLASH continues to grow and expand, so does our commitment to offering transparency to our community. Inspect our site and the code used to build it. Watch as we progress over the coming weeks and months with new and exciting features for you to enjoy and engage with through our website.

If you have any questions, please e-mail us at: [info@flashcoin.io](mailto:info@flashcoin.io)

## About FLASH

FLASH – FLASH coin is a Cryptocurrency based on a fork of Litecoin. FLASH coin is decentralized and community owned. FLASH coin was established in 2016 as there was a need for fast transaction speeds and low-cost transaction fees. FLASH is overseen by the Third Millennium Foundation for Economics and Culture, Liechtenstein. All rights reserved.
